Please include name, number of people, and e-mail or phone number where
we can reach you.

This is a rain or shine event and there is no fee for this event.

Marshall Buck and his wife will be our guests for breakfast.

What are Creative Miniature Associates Models

CMA Models is world renowned for our exceptional quality, attention to detail and wealth of knowledge. We endeavor to create first-rate, historically accurate models. At CMA we offer a multitude of services related to the rarest of large scale limited edition models, one-of-a-kind pieces, kits and production services of the highest quality. In addition to offering exclusive CMA Models, we represent a select line of kits and built models (most of which you will not find elsewhere).

The models and kits we create are extensively researched. If need be, we travel the world to do so. We often have access to the actual car and people who have important history relating to it. Our philosophy is, do it right or don't do it at all. In today's world of mass market

and mass production we are the exception. Our standards are unsurpassed. We are one of the few model companies who do not produce models in Asia. All of our models are made in the U.S.A.

We offer a varied selection, ranging from the classics of the 1930's to the full competition cars of the 1970's. The main focus at CMA is on significant automobiles that are desirable, fascinating and beautiful. As always, we will continue to produce models of cars such as: Aston Martin, Alfa Romeo, Bugatti, Ferrari, Ford GT, Maserati and McLaren, just to name a few.

We offer hand built models and kits for the serious collector and kit builder, unlike any others. We do this by ensuring that our kits and built models are of the highest quality. Included with these are many

fine detail parts, exclusive to our products. All kits produced are limited editions. In some cases, our very limited edition hand built models come with plaques personally autographed by famous race car drivers and automotive personalities. (CMA was the first to offer this to collectors), photos, certificates and other extras.

All of our special editions of built models are limited to a series of as few as 10 to a maximum of 50. If you desire collectable models of uncompromising quality or the finest kits available today, we look forward to hearing from you. Thank you for your interest.

Sincerely
Marshall L. Buck
